```java
1  package intro;
2
3  public class Spikey {
4
5      public static void main(String[] args)
6      {
7          System.out.println("Spikey");
8          System.out.println();
9          System.out.println("  \\/");
10         System.out.println(" \\\\//");
11         System.out.println("\\\\\\///");
12         System.out.println("///\\\\\\");
13         System.out.println(" //\\\\");
14         System.out.println("  /\\");
15     }
16 }
```
